

THE ULTIMATE IN EFFICIENCY BY DESIGN

Rugged Reliability, Energy-Saving Efficiency

Get all-in-one, year-round comfort with a Heil® packaged heating and cooling system. Every Heil unit is designed for maximum dependability, high efficiency and quiet operation.

Think of all the comfort you need, contained in one efficient, compact unit that installs outdoors. The PDD3 uses both gas and electric power for heating, switching from one fuel to the other as the weather changes. The heat pump cools and heats in the temperature range that makes electricity the most efficient energy source. When the temperature goes below that range, the PDD3 automatically changes from the electric heat pump to the furnace mode, using gas as the fuel to maximize comfort and efficiency.

Peace-Of-Mind Warranty Protection

Every Heil unit is backed by exceptional warranties. You get up to a 10 year^s parts and compressor limited warranty* and a 10 year heat exchanger limited warranty.* And don't forget to ask your dealer about HELP® extended service agreements for additional worry-free protection for parts and labor coverage.

PDD3 Packaged Dual Fuel Heat Pump

- Energy-efficient up to 13.5 SEER[‡], 7.7 HSPF[‡], and 80.4% AFUE[‡]
- 10 year heat exchanger limited warranty*
- 10 year^s parts and compressor limited warranty*

[‡]SEER stands for Seasonal Energy Efficiency Ratio, HSPF stands for Heating Seasonal Performance Factor, and AFUE stands for Annual Fuel Utilization Efficiency.

*See published warranty for complete details. To learn more about all of these limited warranties, go to Heil-HVAC.com.

[§]Subject to conditions. Ten year warranty requires timely registration. See detailed additional information on back page and Warranty Certificate at Heil-HVAC.com for complete details.

HEIL® PACKAGED DUAL FUEL HEAT PUMP

- ① Copper/aluminum coils and quality copper tubing with TVX for proper flow of refrigerant.
- ② Durable aluminized steel heat exchanger in tubular shape that promotes efficiency.
- ③ Direct spark gas ignition for greater reliability.
- ④ X-13 indoor blower motor provides efficient airflow.
- ⑤ Copeland Scroll® compressor requires no pistons and few moving parts to give you quiet operation along with efficiency.
- ⑥ Control panels allow for quicker, easier service access.
- ⑦ Rugged pre-painted steel cabinet, full perimeter metal-base rails, and wire grilles to protect the coil.
- ⑧ The advanced electronic integrated defrost control switches quietly from cooling to heating—and keeps coils more efficient during operation.

The Copeland Scroll® compressor requires no pistons and few moving parts to give you quiet operation along with efficiency and reliability.

This Heil product carries a ten (10) year limited warranty on parts, including compressor and coils, to original homeowner if installed in an owner-occupied, single-family residence and properly registered within ninety (90) days after original installation. Otherwise, the parts warranty period is five (5) years from the date of installation. Heat exchangers may carry longer limited warranty coverage that applies to original homeowners with timely registration. (See Warranty Certificate for registration instructions. Registration not required in all jurisdictions.)

All systems tested and listed by the appropriate agencies.

ISO 9001:
2000 Registered

R410A is an EPA-approved, environmentally sound refrigerant.
